1. Welcome

By the ISS/SIC President and ISW 2024 President

*Cheng-Har Yip
ISS/SIC and ISW 2024 President*

Dear All

Welcome to Kuala Lumpur Malaysia and the 50th International Surgical Week. This is together with the 51st Annual Scientific Meeting of the College of Surgeons, Academy of Medicine Malaysia. Malaysia is a multiethnic and a multicultural country comprising of the three main Asian races ie Malays, Chinese and Indians and lives up to its slogan of “Truly Asia”. I hope you will enjoy the many attractions that Kuala Lumpur and its surroundings has to offer. The International Surgical Week in Kuala Lumpur was first proposed in 2019, scheduled for 2021, but because of the Covid pandemic, it is now happening in 2024.

ISW 2024 provides a platform for surgeons from around the world to get together to discuss the latest development in surgical practice through a whole series of workshops, symposia, plenary lectures, debates, videos, as well as free papers and awards. This congress provides an opportunity for surgeons in various stages of professional development, from all over the world, to network and forge collaborations. The program has been developed by our integrated societies, IAES, IATSIC, IASMEN, BSI, ISDS and ASAP as well as the various partner societies, to cover a wide range of topics, scattered over 8 concurrent sessions. At these sessions you will hear from world leaders in surgery. As usual, we have Travel Scholars, comprising junior surgeons from low- and middle-income countries, who have been given the opportunity to attend this world- class congress through generous grants from the ISS Foundation. At this congress, we will also launch the Future Surgeons program which will produce the next generation of surgical leaders.

I look forward to meeting you all at the conference.

I encourage you to make the most of this unique occasion to connect with surgeons from across the globe. Taxi: Getting a taxi - there are a few different ways to find a taxi in KL:

Use a taxi app: several free mobile phone applications are available that allow you to book a taxi in KL, see how long it will take and how much it will cost, and give you the option to pay by card. These include Grab, and Air Asia Ride

Find a taxi stand: KL has many taxi stands throughout the city, where you can hop in a taxi.

The average cost of a short taxi journey in the city centre is usually between 10 and 20 MYR, while a trip to the airport can cost MYR 65.00 or MYR 110 via the KLIA Express. All taxis in KL are fitted with a meter, but we recommend confirming an approximate price for your journey with your driver before you get in. No taxis take card payments, although the various taxi applications available on mobile phones usually allow you to pay by card via the app.

Tipping

Tipping in Malaysia is not expected. Instead, a service charge will normally be added to your bill. The service charge will usually be declared on the menu if you're in a cafe or restaurant, for example, and is paid directly to the company rather than to an individual member of staff.

Mobile Phones

Please respect the presenters and the audience by ensuring that your mobile phone is switched off or in silent mode while you are attending the scientific sessions.

We kindly remind you to take responsibility for meeting travel requirements, including passports, visas, immigration, and health formalities. To ensure a seamless experience, please inform yourself. We cannot accept responsibility for any losses or incidents.
